### **So Why Play Beach Volleyball ?**

*\* The game of beach volleyball is played in a doubles format. There are no outside hitters, setters, middle blockers or defensive specialists. There is no coach deciding playing time, it is just you and your partner. There is no bench on the beach.*

*\* Only two people must cover the whole court and execute every skill affectively to be successful . The mastering of every volleyball skill along with having the speed, strength and stamina to execute those skills is a must.*

*\* Offensive and Defensive strategy has to be developed and executed by the players on the court, coaching during match play is very limited. The intelligent players with a high volleyball IQ succeed .*

*\* The playing environment is pretty great as well!*

*Quote from Karch Kiraly all time volleyball great and current USA indoor Women's coach: " Beach Volleyball taught me things that I could have never learned from the indoor game and made me a better player"*
